Deputies Cable President Harding to Secure Guaranties to Protect Christians.

ADRIANOPLE, Oct. 7 (Associated Press).—The important troop movements by the Greeks in eastern Thrace have continued throughout the last two days. Every train from Saloniki, Macedonia and western Thrace has carried units of infantry and artillery. Gen. Nider, the Greek commander, who has taken up his headquarters at Adrianople, told the correspondent today he was satisfied with the military

France May Appropriate Kaiser's Book Receipts

Special Cable to THE NEW YORK HERALD. Copyright, 1922, by THE NEW YORK HERALD. New York Herald Bureau, Paris, Oct. 7. The promoters of the former Kaiser's memoirs, as well as the papers publishing them, may have to face trouble with the French Government if a resolution adopted by 300,000 members of the French Veterans Association receives official concurrence. The veterans call upon the Ministry of Foreign Affairs to endeavor to attach all receipts involved, so that the portion to be returned to the Kaiser, "author of the world war and directly responsible for all the blood spilled," shall be diverted to France's reparations account.

situation and had sufficient forces to defend Thrace against any incursions. "The army is ready to fight for Thrace to the last man," he said. Gen. Nider, who has been an enthusiastic Venizelist, is regarded as easily the ablest of the Greek Generals. He completed today a thorough survey of the situation throughout Thrace from the viewpoint of the defense of the country.

Appeal to United States. ATHENS, Oct. 7 (Associated Press).—The Thracian representatives in the Greek Chamber of Deputies have cabled President Harding and the American Congress asking them to use their good offices in an effort to secure effective guaranties for the protection of the Greek, Armenian and other Christian populations in Eastern Thrace in the event the Greeks evacuate the province. The General Committee of Twelve which has been supervising affairs since the revolution has been abandoned and the Executive Committee of Three has been increased to four. This powerful military directorate now includes Gen. Othonos, a prominent

Venizelist who was forcibly retired by the Constantine regime. His associates are Col. Gonatas and Plastras and Capt. Sadjikyriakos of the navy. Gen. Othonos will act as president of the committee. Greek circles express the belief that the Allies will not listen to the Kemalist demands respecting such matters as the surrender of the Greek fleet to the Turks and the payment of an indemnity.

Greeks Concentrating. LONDON, Oct. 7.—Greek troops to the number of 10,000 have been concentrated in the Chataldja district, Eastern Thrace, which is under control of French cavalry. It has been announced in Constantinople, says a Central News dispatch from that city filed Friday. Greek officers are reported to have distributed arms to some of the population of Thrace, adding the message, telling them to repulse the Turks. The Greek national banks have granted the Greek Government a loan of 250,000,000 drachmas to be applied exclusively to the army, says an Ex-

change Telegraph dispatch from Athens today.

To Investigate Charges. The Government has ordered an investigation of the alleged mistreatment of Turks in Thrace by the Greeks. It is announced. In this connection it is declared in a Greek statement that subsequent to the Smyrna tragedy the Greek authorities discovered a widespread plot among the Turks to inaugurate an armed uprising in Thrace, and that the Turkish leaders were therefore arrested and deported. The disclosure of the Turkish plot which followed the Smyrna affair, the statement adds, excited the Greeks in Thrace, and it is alleged that in some cases the Greeks burned Turkish villages and committed violence against Turkish individuals. These allegations are now to be investigated. With regard to the happenings at Mudania on Thursday the Allies proposed during the absence of the Turks from the meeting that the Greek army retire to the Maritza in Thrace, according to information in official Greek circles. The Greeks replied that they were unprepared to treat on this question,

which would prejudice the whole issue involved and which properly belonged to the later peace conference, as it was political and not military. Therefore the Greeks refused to meet the Turks with this as the basis for discussion. Later all the parties decided upon a day's adjournment to ask instructions from home.

CAUCASUS SOVIETS CONGRATULATE KEMAL

TIPLIS, Republic of Georgia, Oct. 7 (Associated Press).—"The Turkish proletariat has won a great victory," says a telegram sent by the Federated Soviet Republics of the Caucasus to Mustapha Kemal Pasha at Angora. "Your triumph," adds the message, "will consolidate the friendship between Turkey and Bolshevist Russia. The citizens of Georgia, Armenia and Azerbaijan wish you the same success in the conclusion of peace as in war, with the full realization of your national pact. Long live the new Turkey, the conquering Turkish soldiers and the Turco-Bolshevist friendship."

MEXICO WILL AMEND OR LIMIT ARTICLE 27

Cabinet Members Considering Project for Congress.

MEXICO CITY, Oct. 7 (Associated Press).—As yet the Mexican Government has formulated no project for the amendment or regulation of Article 27 of the Constitution (relating to oil), but the various interested Cabinet members have such a project under advisement, and their ideas probably will be embraced in a formal bill to be presented to Congress within a few months. President Obregon made this known to the newspaper correspondents today, declaring the Government officials were deeply interested in the matter and that considerable thought was being given it, although the definite form of the proposed regulation was in no wise complete.
